## INDIGENOUS FOCUSED NON- INSTRUCTIONAL DAY

***Student Voice In Action:  
Our Collective Work Towards Anti-Racism and Decolonization***

September 23, 2024 ~ Claremont Secondary

**8:45: Welcome to the Territory**

**9:00: Indigenous Data Review** *Dave Eberwein and Melissa Austin*

**9:15-9:30: Say Something - (ROMS 2023/2024 IBPOC Group)**

**9:30-10:30: Listening to the Students:  
Understanding the Importance of the Parallel Journeys of IDEA, Anti-Racism and Decolonization**  
Dr. Gunderson

**10:30-1100: Coffee** (provided)

**11:00-12:00: Session 1** (self-selected during registration)

**12:00-12:45: Light Lunch** (provided)

**12:50 - 1:40: Tzinquaw Dancers**

**1:45 - 2:45: Session 2** (self-selected during registration)

\*\*\*Strong Nations Booksellers will be selling Indigenous Resources all day in the atrium.

\*\*\*Indigenous Department T-shirts and Hoodies will also be available for purchase

## UBC REPORT

*“Students feel safer here, and more included”*

*Evaluation of SOGI 123 in BC*

**Researcher:** Our findings offer robust evidence that SOGI 123 is beneficial for inclusion and support of all students, not just LGBTQ+ students.

**SOGI Lead:** Yeah, I think we've created a safe space for students who identify as being part of the LGBTQ2S+ community.

**Parent:** This was really important and our family feels seen. My child feels seen, and we appreciate the effort that you've put in here.

# UBC Research Report on SOGI 123

## October 2024

### REPORT RESULTS

- Results gathered from the BC Adolescent Health Surveys (2013, 2018, 2023) Gr. 7-12
- Over the past 10 years, LGBTQ+ youth were more likely than heterosexual peers to face verbal harassment, social exclusion and physical assaults as well face more discrimination because of their sexual orientation than heterosexual youth.
- Where SOGI 123 teaching resources have been implemented, there has been a statistical decrease in bullying and discrimination. The longer their implementation, the greater their impact.
- An important factor for successfully implementing SOGI 123 was supportive leadership.
- GSAs also have an impact, but SOGI 123 has impacts above and beyond GSAs, including for heterosexual students.

# GENERATIVE AI

## SUPERINTENDENT'S JUNE 2024 REPORT

- GenAI is ubiquitous and is finding its place in K-12 education
- GenAI can enhance the **Instructional Core**:
  - **Teacher**: Improve teacher knowledge and skills
  - **Student**: Improve student engagement
  - **Content**: Create leveled content & assessments
- The K-12 conversation needs to be about how AI interacts within the educational landscape
  - AI is not about cheating
  - AI is about teaching pedagogy / learning profiles / educational & business applications

# Framework for Generative AI in Saanich Schools

### FIRST PEOPLES PRINCIPLES OF LEARNING

Learning ultimately supports the well-being of the self, the family, the community, the land, the spirits, and the ancestors.

Learning is holistic, reflexive, reflective, experiential, and relational (focused on connectedness, on reciprocal relationships, and a sense of place).

Learning involves recognizing the consequences of one's actions.

Learning involves generational roles and responsibilities.

Learning recognizes the role of indigenous knowledge.

Learning is embedded in memory, history, and story.

Learning involves patience and time.

Learning requires exploration of one's identity.

Learning involves recognizing that some knowledge is sacred and only shared with permission and/or in certain situations.

### Considerations for Using AI Tools in K-12 Schools

BRITISH COLUMBIA Ministry of Education and Child Care

### Codes of Conduct

Helping Students Thrive

#### ADVANCED LEARNING PARTNERSHIPS

### The Foundation for Success

A caring, orderly and safe school is the foundation for a successful learning environment. In Saanich Schools, our Codes of Conduct for all students are designed to reflect the Social Responsibility Performance Standards established by the Ministry of Education.

### Australian Framework for Generative Artificial Intelligence in Schools

# Framework for Generative AI in Saanich Schools

The Board's **Strategic Plan** and the **First Peoples Principles of Learning** provide the framework for the use of Generative Artificial Intelligence (GenAI) in Saanich Schools.

When used appropriately, **GenAI tools** have the potential to enhance the teaching and learning process. In addition to direct classroom uses, streamlining administrative and organizational tasks can optimize efficiency, enabling everyone to prioritize ongoing human interactions.

Education is inherently relational, with human connections playing a vital role in the learning process. While GenAI tools can offer valuable support, maintaining continued human interaction is essential for fostering meaningful relationships. GenAI tools are used as a complement to human processes, not a replacement for them.

**Teaching & Learning**

**Inclusive &  
Accessible Learning**

**Ethical Use**

**Privacy,  
Security & Safety**

# Teaching and Learning

*We believe in providing meaningful and relevant teaching and learning experiences.*

*We do this by:*

- **Communicating** clear information and guiding the effective use of GenAI;
- **Testing** GenAI tools before they are used;
- **Understanding** how GenAI tools work, including the limitations and biases;
- **Using** GenAI tools as supplements to enrich critical and creative thinking, that amplifies but does not replace traditional instruction;
- **Supporting** personalized learning and the development of digital literacy skills.

# Inclusive & Accessible Learning

*We prioritize well-being, embrace diversity, and promote fairness and equity.*

## ***We do this by:***

- **Adopting** a human-centred approach that prioritizes meaningful learning experiences and recognizes the importance of human interaction;
- **Applying** GenAI tools that expose users to diverse ideas and perspectives and avoid reinforcement biases;
- **Supporting** GenAI tools that are inclusive, accessible, and equitable.

# Ethical Use

*We choose our tools carefully and use them safely and equitably.*

## *We do this by:*

- **Inspiring** learners to become knowledgeable, curious and active global citizens while supporting the well-being of themselves and others;
- **Selecting** GenAI tools that align with the District's priorities and procedures for technology use;
- **Monitoring** GenAI tools for emerging risks and learning opportunities;
- **Ensuring** that GenAI-related experiences reflect our Code of Conduct which supports a caring and safe school environment.

# Privacy, Security and Safety

*We protect privacy and are careful with our data.*

## *We do this by:*

- **Ensuring** that staff and students have a broad understanding of district privacy and security procedures;
- **Selecting** GenAI tools that adhere to robust data security protocols and privacy regulations that protect sensitive staff and student information;
- **Using** GenAI tools in ways that respect and uphold privacy and data rights;
- **Providing** clear procedures to mitigate potential risks and safeguard sensitive information.

# Generative AI in Saanich Schools

## NEXT STEPS IN 2024-25:

- Have each school staff work through the **Saanich Schools Gen AI Framework**, providing them with the *‘District bumper pads’* to begin exploring with our approved AI tool (MS Copilot)
- Construct a **Saanich Schools Working Group** of teacher champions and school administrators to provide feedback on what’s working and not working.
- Continue our work with the **Surrey Collaborative Group** to learn more about GenAI, share budding best-practices and build upon our collective experiences.
- Facilitate a future parent / guardian **Information Session**.
